# Inline vs Block elements

## Inline:

- ✓ An inline element does not start on a new line
- ✓ An inline element only takes up as much width as necessary.
- ✓ Span
- ✓ I
- ✓ b

## Block Level:

- ✓ A block-level element always starts on a new line, and the browsers automatically add some space (a margin) before and after the element.
- ✓ A block-level element always takes up the full width available (stretches out to the left and right as far as it can).
- ✓ Div
- ✓ p
